

COMMUNICATIONS POLICY

Help for non-English speakers

If you need help to understand the information in this policy, please contact the General Office 56239900.

RATIONALE

The College policies provide a guide and describe the main processes, functions and operations of the school. The development and review of policies is part of an agreed process to ensure that key stakeholders are part of the consultation and review process.

AIM

To ensure policies frame and accurately reflect the school operations, directions, and goals and meet all legislative, compliance and duty of care requirements. In addition these policies are readily accessible to parents and proactively communicated to the community.

IMPLEMENTATION

To provide effective learning for all students. Empowering young people to make a difference. To ensure Warragul Regional College maintains its commitment to a culture of ongoing improvement.

POLICY

The policies describe the rationale, aims and implementations of the operations and directions of the school as a whole. The process of considering school policies will be managed by the Principal and will be a continuous cycle, and will use a transparent and consultative process.

All policies will use the school policy layout, meet legislative and compliance requirements, and have a designated review period. When developing a new policy, the Principal will consult with appropriate personnel in order to draft the initial policy statement. The draft policy may be circulated for comment to the appropriate committee/s, to staff members, to parents, to students before ratification by School Council. Policies will be developed taking into account DET policies, memos and circulars relating to a particular policy area.

A database of policies and a review schedule to provide a timeline for reviews either annually or on a three-year basis is to be maintained. When reviewing an existing school as per the three-year review cycle, the Principal will consult with staff and the appropriate committees and to School Council for ratification. Changes as a result of policy developments and / or reviews will be widely advised to students, staff and parents. Staff will be given opportunity to provide input into the policy development or review process.

The focus of all school policies must remain the needs of students and school operations. Any concerns relating to the structure of the school should be directed to the Principal or School Council President. Relevant policies will also be loaded onto the intranet and school website for community observation and comment.
