

Loan Laptop Policy

Originally Released: February 2020

All students in Year Seven - Twelve are required to provide their own working computing device as per the College guidelines for use in class. As a backup to support students with their learning, Warragul Regional College IT Department maintains a set of laptop computers for student loan. All loan laptops are for use at school only and must be returned to the IT Office at the end of each school day.

If a family is not in a financial position to provide a computing device for their child, the Principal may offer a long-term loan laptop that is from a different laptop loan pool. Any recipient of a long-term loan laptop is not required to follow the procedures below and can take the laptop home for the period of the loan (typically one year). Parents must make an appointment to see the Principal where a device cannot be supplied for their child to use.
