HORTICULTURE

Plant the seed for a green career

Did you know horticulture is involved in everything from the cotton in your t-shirt to the food on your plate?

This is a diverse and growing industry in Australia with a variety of job options. In this course, you'll get hands-on skills on our impressive 8-hectare training site. You'll work in hydroponic hothouses, poly tunnels, and vegetable and ornamental gardens.

You'll learn how to build and care for gardens, test soil, spot pests and diseases, and safely use tools and machines. These skills can lead to jobs in nurseries, parks, gardens, farms or even nature reserves.

If you enjoy being outdoors, being active and getting your hands dirty, this is the perfect place to start.

What you need to bring:

- Please wear steel-capped boots and suitable clothing for outdoor conditions (high visibility if possible).

Why VET delivered to secondary students?

- Try out a career while you are still in school. Get a head start with hands-on experience AND a nationally recognised qualification!

Qualification:

AHC20422 - Certificate II in Horticulture

Duration:

One year

Location:

CCG Warragul campus
